NIKE THE PEEPER.

Buchanan Man Nearly Loses His Life for Peeping in a Lady's Window.

SHE SHOT WITH INTENT TO KILL

Fright, a Bad Fall and Not the Bullet Is the Cause of His Remaining at Home.

The farming neighborhood about 4 miles southwest of Buchanan is having no end of excitement all on account of a family quarrel which has been in progress for some months past and which nearly terminated fatally to one of the chief actors in the drama on the night of June 6.

Mrs. Mary Curran is a highly respectable lady and lives alone with her young children near Buchanan, her husband having recently died. Ever since his death her brother-in-law, Michael Curran, and in fact other members of her late husband's family have been very annoying.

The Curran family are Catholics and believe that the children of Mrs. Mary Curran should be brought up in this faith, while she being a Protestant is bringing them up as she deems right. A few weeks ago as Mrs. Curran was going to her barn she noticed a letter tacked on the barn door. There was no name signed to the letter but from the contents Mrs. Curran was confident the writer was Michael Curran. The letter said that if she did not give up the children to the family of her dead husband where they could be properly educated they would be shot.

Mrs. Curran was considerably excited but said nothing to anyone about the letter. A week ago last Sunday night she, in company with her children went to church and arriving home late prepared to go to bed. Just outside her bedroom window is a large tree and hearing a noise she glanced out and was surprised and frightened in beholding a man crouched on the limbs of the tree. She at first thought best to hide but thinking that the man, whoever he was, would gain an entrance to the house she changed her mind and stepping to her commode she brought forth a revolver and proceeded to fire at the man. It happened that none of the shots hit the mark but they had the desired effect as the fellow was so frightened that he fell from the tree striking on his head and shoulders. Friends of the injured

man, who was discovered to be Michael Curran, picked him up and carried him home where he still remains on account of his injuries.

He was threatened to have his sister-in-law arrested for trying to kill him but it is the belief that he would have a hard time in finding a jury that would do otherwise than acquit her.

SUES FOR \$10,000.

Charles Bainton Will Make William Burke Prove Things.

Attorneys Worthington and Gore & Harvey today filed their declaration in the \$10,000 damage suit which Alderman Charles Bainton of Buchanan has instituted against William Burke of that place.

The declaration is a long recitation of the alleged fact that Burke repeatedly accused Bainton of selling his vote for \$100 and that he (Burke) really paid the \$100.

A. C. Rowe is attorney for Burke and if the St. Joseph Valley road is in operation when the case comes to trial half of Buchanan will attend the interesting trial.

MILITARY BAND ORGANIZED.

Frazell's Band Elects Citizens as Officers.

Frazell's military band met last evening and organized for the summer by the election of the following officers: President, F. G. Warren; vice president, James McDonald; secretary, J. N. Klock; treasurer, Hart Green.

As soon as the heat allows the business men and citizens will be called on to subscribe to pay for open air concerts every Wednesday evening until October 1.

There is no need of arguing the advantages of a band concert by a good band every week. Every one understands that. If each one does his part weekly band concerts will be assured. Subscription papers may be found at F. G. Warren's store or at THE NEWS office. Let the people liberally respond.

The money raised will all go into uniforms and band instruments. The officers of the band will receive no compensation.

MR. ANTISDALE ALL RIGHT.

He Will be Deputy Collector at this Port.

Notwithstanding the fact that ex-Mayor S. G. Antisdale is over 55 years old his appointment as deputy collector of this port has been notified by the authorities at Washington and Mr. Antisdale will assume the duties of the office tomorrow.

This is quite a fortunate turn in the contest. The republicans were unanimous in their support of Mr. Antisdale and when it appeared that his age would debar him from filling the position several candidates appeared and the appointment of any one of them would not have added to the comfort of the collector, George A. Farr.

Following is a copy of the letter that Mr. Antisdale received from the collector at Grand Haven today:

"Your appointment as deputy collector of the port of Benton Harbor having been approved by the secretary of the treasury, you are hereby directed to take charge of the office from and after this date. The present deputy has been instructed to surrender the office to you and to give you the necessary instructions as to its duties. You will forward to this office a statement of the blanks turned over to you and notify it of the date you assume possession."

Baroda Fruit Growers in Conference With the Vandalia Officials

Today.

INDIGNATION MEETING HELD.

They Want the Vandalia Company to Restore the Fruit Train to Chicago.

BARODA, June 15.—The fruit growers of this vicinity held an indignation meeting last evening and appointed a committee to confer with the Vandalia officials, the conference being set for 11 o'clock today. The object of the conference is to induce the Vandalia company to restore the fruit train which ran to Galien and then over the Michigan Central to Chicago.

If the fruit train is not restored the strawberry crop will be taken over to Bridgeman or Stevensville and there shipped in ice refrigerator cars over the West Michigan. A rate of about 3 cents a crate is offered from Stevensville to Chicago. Last night the berries raised here were drawn to the Graham & Morton boat in St. Joseph. The crop tonight will be hauled to Stevensville and Bridgeman.

The remarkable statement was made at the meeting last night that two-thirds of the berries shipped by boat from Benton Harbor and St. Joseph are transferred to cars in Chicago and shipped to other markets.

AT WORK IN EARNEST.

The Eastman Springs Road Now Being Built.

The Eastman Springs street railroad was begun in earnest on East Main street today. The road will now be pushed.

THE STRAWBERRIES.

A Large Shipment Made Last Evening by Boat and Rail.

Two carloads of berries were shipped from this section last night, one from this city and the other from Stevensville, by the Armour fruit growers' express. One went to Buffalo, the other to Peoria.

W. H. Rose, the president of the grange co-operative society, who has this shipping in charge, refuses to give any information as to the prices which these shipments will bring. He says that if the fruit growers are satisfied with the result they will ship large quantities of berries.

The boats had big loads. When the City of Milwaukee left St. Joseph she had aboard 18,000 to 20,000 cases and the steamer Fayette nearly 5,000 cases. The City of Louisville carried 4000 cases to Milwaukee.

An even larger shipment is expected this evening.

SPANNING AN ELEPHANT.

Remarkable Occurrence In Which One Animal Had to Punish Another.

Did you ever see an elephant spanked? Scarcely, for they don't do such things in this country, but they do in India. Captain Martin of the British army, stationed at Campbellpore, vouches for this story: Elephant Abdul (No. 15) was on trial for killing his keeper, Syce Ramboules, by picking him up by the legs and crushing his skull against a tree.

The president of the court martial was Major Cameron of the Thirty-fourth Hugras native infantry. He read the charge, and then witnesses proved that Abdul was guilty as charged. The president then sentenced the culprit to 50 lashes and to two years' imprisonment.

Two elephants led Abdul to an open space, and in the presence of the whole battery the punishment began. The culprit trumpeted in fear and made an unnatural noise.

There were 14 elephants on one side and the officers and men of the battery on the other three. In the center of this hollow square stood Lalla (No. 1), the flogger, and the prisoner. The latter was chained by the four legs to as many heavy iron pegs and could not move.

Fastened to Lalla's trunk was an immense cable chain. When all was ready, the major gave the word, and down came the chain with a resounding whack. Abdul roared for all he was worth. Fifty times was the operation repeated, and then Abdul was taken to a compound, where he remained a prisoner for two years.—New York Journal.

\$10,000 DAMAGE SUIT.

Edmond A. Graham of St. Joseph Is Defendant in the Case.

A new case was started in the circuit court yesterday afternoon in which Edmond A. Graham, owner of the river steamer May Graham and of E. A. Graham & Co's docks, is the defendant.

The plaintiff in the case is Mrs. Valida Pitcher, of St. Joseph, who seeks to recover damages to the extent of \$10,000 for injuries received while a tenant of one of Mr. Graham's flats.

Last fall Mrs. Pitcher was living in rooms over Bell's barber shop on Ship street in St. Joseph and Mr. Graham was her landlord. During the fall Mr. Graham built a back veranda and stairway to the building and carelessly left an opening from the door step to the platform. It is claimed that Mrs. Pitcher repeatedly spoke to him regarding the opening but was put off each time with a promise that it would be fixed in a few days. One day Mrs. Pitcher fell through the opening and so injured one of her limbs that she will be a cripple for life.

Attorney Nelson G. Kennedy of this city is attorney for Mrs. Pitcher.

managed to keep afloat until he could be fished out. The canal was then dragged for his wheel.

Adolph Reich, a bike repairer of the saint town met a worse misfortune. He was run into by one of Herring's livery teams and his wheel was badly demolished. The rims were broken in several places, the tires torn in pieces, the spokes bent and broken. The forks broken and the frame sprung.

Mr. Reich is congratulating himself that his own frame was not injured.

Incendiary Fire Burns a Man to Death.
S. Paul, June 15.—A Missoula, Mont., special to The Pioneer Press says: A fire Sunday night destroyed the breeding stables of Higgins Bros., the well-known horsemen of this city. With the stable five horses were burned, including Brino Trick, 2:13%, one of the best known pacing horses of the west. Fred Strouser, a jockey, was burned to death in attempting to save a colt which was his special charge. The fire was incendiary and was the tenth that has occurred in this city within a few weeks.

Curled Hair Plant Burned.

St. Louis, June 15.—Fire destroyed the plant of the St. Louis Curled Hair company at the foot of Brennan avenue last night. The loss is placed at \$50,000.

Iowa Insurance Companies Barred.
St. Paul, June 15.—Insurance Commissioner Dearth yesterday notified the Iowa insurance companies that their licenses stand cancelled from yesterday, and that any business written in this state hereafter until further notice will be held to be in violation of the law. This is simply another step in the war of retaliation between Iowa and Minnesota, the former having ruled Minnesota companies out of that state on what Commissioner Dearth considered insufficient ground.

TWO OF A KIND.

But the Dry Goods Salesman Objected to Fellowship With the Puller In.

A smart looking and well dressed gentleman lounged in the elevator entrance of a Broadway wholesale dry goods warehouse. Apparently his sole occupation was watching the faces of passersby. Now and then he would make a feint at starting for some passing figure and then generally resume his listless attitude against the door jamb. At last he did make a frantic dive for a stout gentleman who was passing. Unfortunately a crowd of pedestrians obstructed his purpose, and before he could clutch the arm of the stout gentleman, who was a buyer for a well known retail store, another smart looking, well dressed gentleman, who had been lounging at the elevator entrance of another wholesale dry goods warehouse, darted out, seized the stout gentleman by the hand and had him in the elevator in a moment.

That same afternoon the first mentioned of the two smart looking, well dressed gentlemen was walking from Worth street to the bridge on Park row and had nearly reached Baxter street when a tough young man seized him by the arm.

"Say, boss, can't I sell you a first class overcoat? Our goods is de best on de row, an we'll make de price to fit yer pocket. See? Come in an let me in."

He tugged vigorously as he said this, and the gentleman was growing red in the face.

"Let go my coat, you blackguard, or I'll have you arrested!" he shouted, struggling to shake off the other's clutch.

"Oh, no, you won't! We're in de same biz. See? Jus' come in an look over our goods. I'm sure we can suit you."

With a violent wrench the gentleman took himself free and turned indignantly on the puller in:

"If I could see a police officer, I'd have you arrested, you!"—Then words failed.

"No, you wouldn't. Yer not'n better'n a puller in yerself. I've seen you on Broadway layin' fur people an yankin' em in jes' es we do. Yer jes' a puller in, same as I am, but you ain't got no pride nor sympathy in de biz. See!"

And the smart looking, well dressed gentleman hurried off without saying yea or nay or uttering a protest. The canker of comparison had entered his soul.—New York Sun.

Contracts.

Statistics show that the uneducated factory girl is more frequently married than is the wide awake, capable girl in the higher salaried position of stenographer, office assistant, clerk or trusted secretary. The factory girl is not thrown with people of wealth and position so much as is her more talented sister, and consequently when some honest man comes along she is ready to trust her future with him in a simple, even shabby, little home. But the girl who sees, day by day, the rustle of my lady's silks and the courtly manners of my lady's husband and sons will not be content to give up her salary, however difficult it may be to earn it, for the sake of being loved by a man who may not find her so charming when the rent is overdue and the babies need new shoes. So she stays on, growing old and acquiring deeper lines about her mouth.

Never Tested Him.

"He's a fine young man," remarked Colonel Stillwell, "a very fine young man."

"But isn't he disposed to be rather shy?" inquired the girl to whom he was talking.

"As to that, I really couldn't say. I never had the pleasure of playing poker with him."—Louisville Courier-Journal.

Bright Boy.

"What's your occupation, bub?" asked a visitor at the capitol of a bright boy whom he met in the corridor. The boy happened to be a page in the White House. "I'm running for congress, sir," he replied.—Christian Intelligencer.

Not Needed.

"I have here a neat and pretty little letter opener," began the agent.

"So have I at home," said the business man sadly. "I'm married."—Cincinnati Commercial Tribune.

THE RISKS OF HAWAIIAN ANNEXATION.

AN STATE MAN MUCH IN EARNEST

Hoar Tells South Carolina That the "Contempt" Allegations Are Both Preposterous and Infamous and Received by the Good People "with Absolute Contempt"—Tillman Continues to Worry, However—Hawaiian Annexation.

Washington, June 15.—The senate debate on the sugar schedule of the tariff bill proceeded yesterday with only one diverting incident to relieve the monotony into which the discussion has slipped. This was the sharp exchange between Hoar and Tillman, representing the two extremes of senatorial procedure. Tillman referred again to the published charges of irregularity in connection with the sugar schedule, and asserted that the senate would stand convicted before the American people if it failed to investigate the charges. Hoar calmly and impressively repelled this statement, his tone and language being calculated as a rebuke. He declared that the vague charges of irregularity were not only preposterous, but infamous.

Allen Blasts the Trusts.

Another feature of the day was Allen's blast against the trusts. He charged that the trusts in the last campaign all opposed Bryan's election, and that many of them closed down some of their factories to influence their workmen. He named eleven trusts and said they were capitalized at \$432,000,000 and bonded at \$43,000,000, while representing an actual investment of only \$17,000,000. He spoke of the trusts as "modern pirates." The assertion that if the anti-trust amendment prevailed the revenue designed to be provided by the tariff bill would collapse, he said, was absurd, and submitted figures to show that the proposed duties on articles controlled by these trusts based on present importations would be but \$8,000,000. If some remedy against trusts was not adopted then the extreme remedy of government ownership would loom up as a practical question. "While that," said he, "is socialism, yet socialism is preferable to despotism."

"Absolute Contempt" for the Special.

The Hoar-Tillman episode occurred when Hoar offered his amendment for the appointment by the president of a commission of five members to investigate into the subject of sugar production and the best means of supplying the American market at the least cost. The framers of the tariff bills were honorable men, and although it had been suggested in the press that somebody had been bribing senators these statements are received by serious people throughout the country "with absolute contempt."

TILLMAN STICKS TO HIS MUTTON.

Insists That the Senate Should Prove That It Is Not a Housewife.

Tillman replied to Hoar. He said he had the deepest respect for the integrity of the senator from Massachusetts, but perhaps he had become callous in his long service, as was indicated by the statement that the best people of both parties treated with contempt the statement that there was irregularity in making the sugar schedule. On the contrary, the people wanted an investigation; they wanted the honor of the senate vindicated or the men who slandered it punished. For that reason, Tillman said, he had contemplated an amendment to Hoar's proposition so that the commission would not only inquire into the sugar machinery or sugar making but also whether the sugar trust had used unduly means to control legislation, and to get at the root of how it is, and why it is that the American senate can't touch sugar without getting contaminated."

Hoar was instantly again on his feet and turning to the South Carolina senator said there were some men who seemed to think that down beneath the body of the people there was a great mass of seething people eager for extremes. He knew through and through the character, purposes and opinions of the men who get their living from the farms and factories of Massachusetts. "They are," he proceeded impressively, "simple, sincere, honest, liberty-loving, God-fearing men. They think no evil, and the appeal to vile passions falls on deaf ears with them." The men who make up the farms and factories were the same the country over, he said. "And I hold," he concluded, "that to the great body of these people these charges are not only preposterous but infamous."

Tillman again made reply. While he claimed no special mission, he had come from the farm and the people and to the senate more recently than the Massachusetts senator. He knew, he said, "that the only thing infamous in this transaction, in the view of the people, is the refusal to investigate and this effort to hide behind the senatorial toga." If the senate persisted in this, then it was disgraced before the people. Public charges had been made that bribery was abroad in connection with this subject, "and unless you investigate you stand convicted," asserted the senator.

Allison, in charge of the bill, made another speech in defense of the schedule, presenting tables which he declared proved that the sugar refiners received less protection under the senate schedule than under the existing law. Pettigrew spoke at length in favor of his amendment to place on the free list articles controlled by trusts. Only one roll-call occurred during the day, on Lindsey's amendment to place all sugars on the same basis. This was rejected—26 to 29.

McEnery voted with the Republicans in the negative and Pettigrew and Mantle with the Democrats in the affirmative.

HAWAII ISLANDS TO BE ANNEXED.

Treaty to That Effect Nearly Ready to Send to the Senate.

Washington, June 15.—The officials at the state department steadfastly refuse to make any statements as to the negotiation of a treaty providing for the annexation of Hawaii, and at the Hawaiian legation the same silence is observed. However, it is known that the treaty, though not signed, is drawn up ready for signature, and as the president is fully aware of its scope there is no reason to doubt that he will authorize its signature. In this case it is expected that the document will be sent to the

Senate in time to receive a favorable reception for the treaty in the senate and to guard against such a mishap as befell the arbitration treaty last session.

The present condition in Hawaii, it is said, has had much to do with favorable consideration of the treaty of annexation. The present government of Hawaii and the people who support it are very much concerned about the Japanese situation. Private information received by Hawaiians in this city is to the effect that the Japanese at any time may take action looking to acquisition of the island. The advices officially received are of much the same tenor. The sentiment in the senate seems to be that Japan in no way should control the islands or get a foothold there. This argument has been used to prevent even notice of abrogation of the present treaty in the tariff bill. It is said that such notice might be followed by Japanese occupation, and the islands could not be regained by the United States without a struggle.

In this connection it is learned that the conversations among the most prominent Japanese residents of Hawaii which have been reported to the representatives of the island in Washington have been of a threatening character, and that the American residents have more concern than has been shown in the published accounts. Several senators have received definite information concerning the existence of the treaty and are acquainted with its terms, though they refuse to discuss the matter, having received the information in confidence. The knowledge of the existence of the treaty has been communicated to the members of the committee on foreign relations and also to members of the finance committee.

The senate has been canvassed to a certain extent by senators favoring annexation and while there are some senators who are non-committal, the supporters of the proposition say they believe that they can count upon the two-thirds vote necessary to insure ratification. The especial friends of the president about the senate say that the treaty has been made in accordance with his views, and that it would have been sent in some time ago but for his exactions as to details.

BIG PETITION FOR CUBA LIBRE.

Said to Contain 6,000,000 Signatures.

House Adjourns as Usual.

Washington, June 15.—The house yesterday adjourned until Thursday after a session that lasted forty-five minutes. The only attempt to transact business was a request by Lucey for unanimous consent for a bill for the relief of residents of Greer county, O. T. Henry (Dem. of Texas) promptly objected, and then after the usual Democratic protest against the Republican policy of not appointing committee the house by 38 to 75 with fifteen present and not voting decided to adjourn.

Before the session began the hub of a wheel wound round with a monster petition said to contain 6,000,000 signatures appealing to congress to recognize the Cuban insurgents as belligerents was wheeled into the space in front of the speaker's rostrum. It had been in circulation throughout the United States for about six months and was presented to congress by Representative Sulzer of New York.

Import and Export Statistics.

Washington, June 15.—The monthly comparative statement of imports and exports issued by the bureau of statistics, treasury department, shows the exports of domestic merchandise during May to have amounted to \$76,302,082, against \$64,587,491 for May last year. The imports of merchandise during May last amounted to \$79,321,827, of which \$36,683,770 was free of duty. The increase in the total imports of merchandise over May, 1886, was over \$22,000,000. For the eleven months ended May 31 last, the exports of domestic merchandise exceeded those for the same period last year by over \$162,000,000, while the imports fell off during the same period over \$44,000,000.

Pension Business Increasing.

Washington, June 15.—The war veterans are rushing forward their applications for pensions under the new administration, and the increase in the volume of such business has been so extraordinary as to necessitate the detail of thirty additional clerks to the record division of the pension office to look after the claims. In the ten days ending last Saturday the number of applications of all kinds for pensions aggregated 14,300.

During the eighty-three days subsequent to March 8 last the record division of the office disposed of 34,000 applications. The approximate number of such claims now pending in the bureau is 35,000.

Republican Senators Caucus.

Washington, June 15.—The Republican senators last night was in session from 8 o'clock until 11:30 o'clock and three propositions only were under consideration: These were: The question of what to do with the Hawaiian reciprocity treaty, the advisability of giving a bounty on beet sugar, and the question of an anti-trust amendment.

The Hawaiian treaty question was passed over,

the sugar bounty proposition was withdrawn, and the anti-trust amendment was referred to the Republican members of the judiciary committee.

Rivera Is Not Under Death Sentence.

Washington, June 15.—The Spanish minister has received an official communication stating that the report coming from Habana via Key West that the insurgent leaders, Rivera and Barcia, are in danger of being shot, is false, for not a single insurgent leader is under the death sentence.

Grew Tired of His Wife.

Mount Vernon, Ills., June 15.—Deputy Sheriff Bruce has returned from Salem, where he succeeded in catching millionaire James E. Berry, who has for several days eluded arrest on a charge of wife abandonment. Berry will have to face this charge, which provides for a heavy money penalty and jail imprisonment, and says he will spend every dollar of his fortune and die in the court house yard before he will return to his wife. It seems he has thoroughly tired of his wife.

State Tax Levy For Michigan.

Lansing, Mich., June 15.—Auditor General Dix has determined that the state tax levy for the present year will be \$1,297,000 and \$2,013,000 for 1887. The state taxes for the biennial period will be less than for 1885 and 1886.
